

# Annual Flying Stars 2026

Your home's energy map for the year ahead

Each year, the nine Flying Stars rotate to new positions in your home. In 2026, the White Water Star (1) anchors the center — bringing career clarity and wisdom to the heart of your space. Use this map to activate your strongest sectors and protect against the challenging ones.

## 2026 NINE-PALACE STAR CHART

|                                                                                                  |                                                                                               |                                                                                             |
|--------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|
| <div>SE</div> <div>9</div> <div>Purple Fire</div> <div>Future prosperity &amp; celebration</div> | <div>S</div> <div>5</div> <div>Yellow ⚠️</div> <div>Grand misfortune — REMEDY NOW</div>       | <div>SW</div> <div>7</div> <div>Red Metal</div> <div>Theft &amp; deception — caution</div>  |
| <div>E</div> <div>8</div> <div>White Earth</div> <div>Wealth &amp; abundance — ACTIVATE</div>    | <div>CENTER</div> <div>1</div> <div>White Water</div> <div>Career, wisdom &amp; romance</div> | <div>W</div> <div>3</div> <div>Jade Wood</div> <div>Conflict &amp; arguments — remedy</div> |
| <div>NE</div> <div>4</div> <div>Green Wood</div> <div>Romance &amp; academic luck</div>          | <div>N</div> <div>6</div> <div>White Metal</div> <div>Authority &amp; windfall luck</div>     | <div>NW</div> <div>2</div> <div>Black Earth ⚠️</div> <div>Illness — REMEDY NOW</div>        |

## PRIORITY ACTIONS FOR 2026

### ACT ON THESE FIRST

- ✦ **ACTIVATE East (Star 8)** — most auspicious sector of 2026. Place a water feature, crystals, or spend time here for wealth activation.
- ✦ **ACTIVATE Southeast (Star 9)** — Star 9 is the star of Period 9 (we're in it now). Add bright light or red elements for expansion luck.
- ✦ **REMEDY South (Star 5)** — place metal objects (brass bowls, metal wind chimes with 6 rods) in the South. Avoid renovation, loud noise, or red/fire colors here.

## ANNUAL AFFLICTIONS 2026 — SECTORS TO AVOID DISTURBING

|                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                    |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>SOUTH · 午</div> <div>Tai Sui — Grand Duke Jupiter</div> <div>The Grand Duke resides in the South in the Year of the Fire Horse. No renovation, digging, or ground disturbance in the South. Avoid sitting with your back to the South for important meetings. A Pi Xiu or Tai Sui plaque facing South appeases the Grand Duke.</div> | <div>SOUTH · DOUBLE AFFLICTION ⚠️</div> <div>South: Tai Sui + Five Yellow</div> <div>The South is doubly afflicted in 2026: the Grand Duke AND the Five Yellow (Star 5) both occupy this sector. This makes the South the highest-priority area to protect. No noise, fire elements, red colors, or any renovation whatsoever.</div>               |
| <div>NORTH · 子</div> <div>Sui Po — Year Breaker</div> <div>Always opposite the Grand Duke, the Year Breaker sits in the North. Leave this sector undisturbed — no renovation or heavy activity. Note: the North carries Star 6 (windfall) this year — activate it gently with décor rather than construction.</div>                       | <div>NORTH SECTOR · NW, N, NE</div> <div>San Sha — Three Killings</div> <div>In Horse years, Three Killings afflicts the entire North 90° sector (Northwest, North, Northeast). Avoid renovation across all three northern sectors. You may face Three Killings but must never sit with your back to it — the back must always be protected.</div> |

PALACE-BY-PALACE READINGS

|                            |                      |                                                                                                                                                                                                                                                                             |
|----------------------------|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>East</b><br>Star 8      | Wealth               | The luckiest sector of 2026 for financial gain. Earth energy — place crystals, yellow or gold objects, or a water feature. Spend time here when making important financial decisions. Activate with activity and good lighting.                                             |
| <b>Southeast</b><br>Star 9 | Future Prosperity    | Star 9 is the reigning star of this 20-year Period 9 cycle (2024–2043). In the SE, it signals expansion, joyful events, and breakthrough luck. Add bright lighting or red/fire elements. Excellent for career launches and creative projects.                               |
| <b>Center</b><br>Star 1    | Career & Wisdom      | The annual star ruling the year's overall tone. Career clarity, intellectual sharpness, and harmonious relationships benefit from activating the center of your home. Keep this space open, clean, and well-lit. Add a water element for amplification.                     |
| <b>North</b><br>Star 6     | Authority & Windfall | The North governs career and life path (BaZi and Feng Shui agree). Star 6 here brings recognition, authority, and unexpected windfall opportunities. Metal element (white/silver décor, metal objects) enhances Star 6. Ideal for those in leadership or seeking promotion. |
| <b>Northeast</b><br>Star 4 | Romance & Academics  | Favors relationships, creative writing, and academic pursuits. Add four green plants, a vase of flowers, or a piece of artwork here. Students and those seeking love benefit most from activating this sector.                                                              |
| <b>South</b><br>Star 5     | Grand Misfortune ⚠   | The most dangerous star of 2026. Place 6-rod metal wind chimes or a brass Wu Lou (gourd) here immediately. Avoid renovation, digging, or loud disturbances in the South this year. Do not place fire elements (red, candles, lamps) as this feeds the 5.                    |
| <b>Northwest</b><br>Star 2 | Illness ⚠            | The illness star in the sector of the patriarch/provider. Place a metal Wu Lou or string of six coins here. Keep this sector quiet. Those with health concerns should be especially careful — avoid sleeping with your head pointing Northwest in 2026.                     |
| <b>West</b><br>Star 3      | Conflict             | Arguments, legal disputes, and miscommunication. Place red objects or a bright light in the West to control Star 3 (Fire controls Wood). Avoid placing water here as it feeds the conflict energy.                                                                          |
| <b>Southwest</b><br>Star 7 | Theft & Deception    | The Southwest governs love and relationships. Star 7 here can bring dishonesty or financial loss through others. Place three bamboo plants in water or blue/black items to suppress. Be discerning in new partnerships this year.                                           |

PROTECTING AGAINST THE INAUSPICIOUS STARS

|                                                                                                                       |                                                                                                                  |                                                                                     |
|-----------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| <b>METAL CURES</b><br>6-rod metal wind chimes, brass Wu Lou, metal singing bowls.<br>Effective against Stars 2 and 5. | <b>WATER / BLUE CURES</b><br>Three bamboo in water, blue/black décor, small water feature.<br>Suppresses Star 7. | <b>FIRE CURES</b><br>Red objects, bright lamps, candles.<br>Controls Star 3 (Wood). |
|-----------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|

This is the universal annual overlay — the same for every home. For a personalized reading specific to YOUR home's facing direction and construction date, a Flying Stars Mini-Reading reveals your home's permanent chart layered with the annual stars.
